Can you print out below schedule and give to Dale? It's all the games combined.

#### REMINDERS

- We expect significant traffic and area congestion during all football games, but we expect this will be exacerbated during Rams games, when a number of guests who are not familiar with our facilities or processes are welcomed to campus for the first time. If you do not need to come to campus on any of the weekends listed above, we strongly encourage you to stay out of the area.
- No tailgating will be allowed on campus during any Rams games, or during the Thursday night USC contest on October 27th.
- As always, USC permits are valid on game days in our system, but you may be required to park in a different location than your permit indicates if your location is full when you arrive. Permits are also valid on Sundays for Rams games, but we would again request you stay away from the area unless attending the game, due to heavy congestion and traffic.
- As we have done the last three years, USC Transportation will be coordinating with LADOT, LAPD, Metro, and many other agencies to close area streets after USC games to

facilitate faster egress from the Coliseum. The same procedures will be in effect during Rams games as well; if you plan to be on campus during one of the dates above, please be aware of area street closures around the Coliseum.

Thank you for your patience and cooperation this semester as we prepare for a number of busy weekends ahead. Please let us know if you have any questions or concerns.
